

Welcome to the [EuroNanoForum 2015](#) conference in Riga, Latvia next June (10th-12th)!

The [EuroNanoForum 2015](#) is Europe's largest networking conference on nanotechnologies and advanced materials science, innovations and business, across all industrial sectors. The Latvian capital of Riga will host the bi-annual conference that is expected to attract more than 1200 visitors from over 50 countries during its three-day programme.

The [EuroNanoForum 2015](#) is a meeting point for industry, science and policy. It enables its participants to explore cutting-edge research, latest innovations and rising companies from all around Europe, provides extensive networking and matchmaking possibilities, and features aspects of upcoming H2020 calls as well as regional and public-private partnerships.

Over the three days, [a range of must-see talks](#), reviewing the status of European technology development in nanotechnologies and advanced materials, will be delivered by the [leading minds](#) to complement vast opportunities for doing building partnerships for business and research. **Essentially, EuroNanoForum 2015 enables its participants to be in the vanguard to explore cutting-edge research, innovations with an impact, and rising companies from all around Europe.**

Now is the best time to get involved in the conference:

- [Register](#) by March 15th and benefit from the Early Bird fees!
- The calls are open until March 15th:
 - Contribute to the conference by submitting a [poster](#).
 - Take your chances at the [FutureFlash! Best EU Project Competition](#) to disseminate your research results and win the award.
- Take part in the [Brokerage Day](#) to find research and business contacts, as well as partners for future EU projects, among 1 200 event participants from 50 countries.
- Join the [Nanotech Europe exhibition](#), organised by Spinverse in parallel with the conference, to gain visibility for your innovation; showcase your results to industry, government & research; and to find growth opportunities from cooperation and funding.
